CAREER OBJECTIVE

Passionate Computer Science undergraduate with hands-on experience in full-stack development, problem solving and AI/ML. Eager to build scalable, secure applications and contribute to innovative software solutions in dynamic teams.

PROJECTS

SynergyKart – E-commerce Search & Recommendation System [View Project] 2025

Developed a smart full-stack e-commerce platform using React (TypeScript), Node.js, MongoDB, and Elasticsearch, featuring intelligent search with fuzzy matching, BM25-based ranking, semantic query interpretation, and dynamic auto-suggestions. Implemented efficient algorithms for searching, ranking and built scalable APIs and collaborated with a team of 4 to design an intuitive UI for real-time product discovery and recommendations.

Digital Prescription Generator [View Project] 2025

Built a secure digital prescription system using the MERN stack. Implemented authentication, validated APIs, and real-time interaction between doctors and patients. Enabled PDF generation for efficient and accessible record-keeping. Automated doctor-patient workflows with secure prescription management, reducing manual effort by 30% and improving accessibility.

Exam-wise Summarization Tool [View Project] 2024

Built a machine learning-based text summarization tool that scrapes exam-related data to generate concise summaries. Leveraged Python, SpaCy, and databases for efficient data storage and retrieval. Optimized runtime and memory usage for efficient deployment, ensuring a scalable solution.

INTERNSHIP

Teaching Assistant – Beginner-Level DSA and Interview Preparation, PVPSIT Mar 2026–Apr 2026

Conducted sessions on foundational Data Structures and Algorithms for beginners. Guided students in basic problem-solving approaches, clarified doubts, and conducted mock interviews to support their technical interview preparation.

AI/ML Internship - AICTE Eduskills [Google Virtual] July 2024-Sep 2024

Completed an internship focusing on AI/ML applications, gaining hands-on experience in designing and implementing intelligent systems to solve real-world problems.

EDUCATION

B.Tech, Prasad V Potluri Siddhartha Institute of Technology 9.3* CGPA (2026)

Relevant Coursework: Computer Science and Engineering (Data Science)

Intermediate, Sri Chaitanya Jr. College 95% (2022)

SKILLS

Programming Languages: Java , Python , C , C++

Web Development: HTML, CSS , JavaScript , React , Node.js, Express.js, MongoDB

Technologies: MERN , SQL, Machine Learning, Natural Language Processing (SpaCy), Data Visualization (Power BI)

Core CS Concepts: Data Structures and Algorithms (DSA), Object-Oriented Programming (OOP), DBMS

Tools & Platforms: GitHub, VS Code, PostMan, Render, Vercel

ACHIEVEMENTS AND CERTIFICATIONS

- **Flipkart GRiD 7.0 National Finalist:** Selected among top 48 finalists from over 1.6 lakh participants in a national-level hackathon conducted by Flipkart; recognized for delivering a high-impact search and recommendation system.
- **INSA-NASI-IAS Summer Research Fellowship 2025:** Selected for the prestigious national-level research fellowship jointly offered by INSA, IAS and NASI recognizing academic excellence and research potential.
- **Hackathon:** Secured first prize in a department hackathon "Web Scraping to AI" for an innovative solution under tight deadlines, showcasing problem-solving and teamwork skills.
- **NPTEL:** Awarded Silver Certificate in "Machine Learning", "Soft Skills and Enhancement" and achieved Elite Certification in "Database Management Systems".
- **Online Certifications:** Completed Python Programming on Coursera; earned Java and Python certifications from IIT Bombay via Spoken Tutorial.
- **Competitive Programming:** Achieved 5-star in Problem Solving and 3-star in C, Python on HackerRank; 1700+ contest rating on LeetCode with 50-day, 100-day, and monthly badges (Top 11.23%).

CO-CURRICULAR AND LEADERSHIP

- Coordinator, Innovation Council – Led innovation-based initiatives for freshman engineering.
- Won accolades in elocution, debate, paper presentations, and group discussions.
- Organized and hosted college-level events, demonstrating team leadership and event management skills.
